## Introduction

You can customize Connecting Kids to Coverage National Campaign print materials for use in your community. Messages are framed around giving parents the peace of mind and security that comes from knowing they can get quality, affordable health coverage for their children. The materials provide information on income eligibility for Medicaid and the Children's Health Insurance Program (CHIP), the valuable benefits the programs provide (e.g., check-ups, hospital visits, emergency services, prescriptions, etc.) and how to apply.

These materials are intended to be used by Campaign partners, grantees and other community-based organizations to provide information to parents and caregivers of children who are eligible for Medicaid and CHIP but are not enrolled.

You can customize the materials for use in your community. You have the opportunity to insert your program name(s), your state's annual income eligibility limit for a family of four, your website address and/or phone number, and up to two logos. You will receive your customized, high resolution PDF via email within two weeks.

CMS continues to offer material customization free of charge. However, due to the large number of customization requests we receive, we ask that organizations select up to five resources to **customize per month**. This is per CMS Product Number (No.). An organization may request multiple languages per product number. For example, "Artist" palmcard, CMS Product No. 11642, in English and Spanish (-S)would count as one resource request.

Please see page 7 for detailed information on how to submit your request for customized materials to the CMS Division of Multimedia Services (DMS).
